Experience

Intern – MERN Stack Developer

Luminar Technolab

Sep 2025 – May 2026

Worked as a MERN Stack Developer Intern at Luminar Technolab, where I gained experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. I also worked on developing REST APIs and improving my skills in frontend and backend development.

PROJECTS

Book Store

- Developed a full-stack bookstore application using React, enabling users to buy, sell books, and apply for job opportunities.
- Implemented user authentication, dynamic book listings, shopping cart functionality, and job application module to enhance user experience.

Resume Builder

- Created mini projects and real-world applications as part of training
- Developed a dynamic Resume Builder web application using React.js

Curd Application

- Developed a full-stack CRUD web application using React and backend server, enabling users to register, log in, and manage data efficiently.
- Implemented authentication and RESTful APIs for secure user access and seamless Create, Read, Update, Delete operations.

Skills

● **Frontend Development** : HTML5 | CSS | Java Script | React.js | Tailwind | Redux

● **Backend Development** : Node.js | Express.js | RESTful API Development | Authentication (JWT, OAuth basics)

● **Database** : MongoDB | Mongoose

● **Tools & Platforms** : Git & GitHub | Postman (API testing) | VS Code

● **Other Skills** : Debugging & Problem Solving | Deployment (Vercel / Netlify / Render basics)
